OFFICE OF STATE ASSAYER,
Portland, Me., March 5, 1867.
This is to certify that I have this day tested a burning fluid oil, with reference to its liability to explosion. The oil was introduced into a test tube, the tube partly immersed in water and heat was applied. The water was raised to the boiling point, and the heat was continued until the temperature of the oil in the tube was 207 degs. Fahrenheit. No flame was applied to the mouth of the tube, but there was not sufficient evolution of vapor to take fire.
From the test I should regard the oil in question as perfectly safe for household use, when employed with ordinary care.
Signed, H. T. CUMMINGS,

Portland, Maine.
I TAKE great pleasure in saying to my friends and customers that I have now on hand, and am constantly making, a large number of the most Elegant Carriages, in Style, Finish and durability ever offered in New England.
Having greatly enlarged my factory, I hope hereafter to be able to supply my numerous customers, with all kinds of fine Carriages, including my celebrated "Jump Seat," invented and Patented by me in 18 4, in addition to those heretofore built which I have greatly improved, I have just invented an entirely New Style **Jump Seat,** with Buggy Top to roll back or take off, making six different ways the same carriage can be used, each perfect in itself, and manufactured by no other concern in the United States. These carriages give the most perfect satisfaction, as some hundreds of testimonials I have in my office will prove. Cuts of the Jump Seats, sent by mail to those wishing to purchase.
All persons are hereby cautioned against making or selling the Kimball Patent Jump Seat without first purchasing of me a right to do so, as my inventions and Patents cover every possible movement to both seats.
"All carriages sold by me are made in my factory under my own supervision, by the most skillful workmen, nearly all of whom have been constantly in my employ for many years, and their work cannot be excelled. All my carriages are warranted and sold for prices lower than the same quality and finished carriages can be purchased for at an other establishment. Please call and examine before purchasing.

A LARGE ASSORT

THE PRESS.

Friday Morning, May 3. 1867.

The Majority Question—96 or 288?

The law of the State requires, in order to grant the aid of a city or town for railroad purposes, that the measure shall be carried by a two-thirds vote. In announcing the result of the late vote in this city, two of our contemporaries have done so in these words:

On Tuesday the citizens went to the polls and voted yeas 1278, noes 495, the advocate of the loan thus prevailing by 96 votes more than the necessary two-thirds.

The *Press* of Wednesday morning gave the vote as 288 more than the requisite two-thirds. And this statement is the correct one, and may be easily shown. It was necessary, in order to carry the loan, that every negative vote should be overcome by two affirmative votes.—There were 495 negative votes; 990 affirmatives votes would have been sufficient to carry the loan. This number was obtained, and 288 more, being a surplus, or the excess of the required majority. The point may be illustrated in another form. Had the affirmative vote been 288 *less* than it was, the question would have been decided precisely as it has been decided. Does not this show a majority of 288?

We know it is very common to announce the result of a popular vote, where a simple majority is required to elect, after this style:

Whole number of votes,	102
Necessary to a choice,	52
John Snooks has,	101
Scattering,	1

Now how absurd to say *fifty-two* votes were necessary to elect Mr. Snooks when *two* votes would have done so quite as effectually as the whole number he received, and, in this case, how equally absurd to say his majority was only fifty when he could have spared 99 votes and still borne off all his blushing honors.

The truth is, practically, and also in fact and in commonsense usage, a majority is not simply the excess of votes above one half, but the actual number required to over come the opposition, and this tallies precisely with Worcester who gives as one of the leading definitions of the word majority the following: "The excess of the greater part of a number above the other part or parts; as, 'By what *majority* of votes was he elected?'"

Maine Conference, M. E. Church.

HISTORICAL AND STATISTICAL.

At the General Conference of the Methodist Episcopal Church held in the city of Baltimore in May, 1824, the Maine Conference was set off from the New England Conference. It included the whole of Maine, and that part of New Hampshire east of the White Mountains and north of the waters of Ossipee Lake, and had a ministerial force of forty-two and a membership of 6,466. Its first session was held in Gardiner, June 7, 1825, where Bishop George, a man full of faith and the Holy Ghost, presided. The deep impression made upon the vast assembly who listened to his sermon on the Sabbath is still fresh in the mind of one who was then a mere boy. The last Conference in which the whole State was represented, met at Saco, June 30, 1847, at which the venerable Hedding presided.

The General Conference of 1848, held in the city of Pittsburgh, constituted two Conferences in the State. The Maine Conference includes that part of Maine west of the Kennebec river from its mouth to the great bend below Skowhegan, and of a line thence north to the State line, and that part of New Hampshire before included. The East Maine Conference includes the remaining part of the State of Maine.

From a table carefully prepared by Rev. A. Moore, and published in the minutes of the Maine Conference in 1866, it appears that, up to the time of this division, the Conference had gained two hundred and eighty-five preachers by admission on trial; thirty-three by re-admission, and thirty nine by transfers from other Conferences, and had lost sixty-seven by location; seventy-one by discontinuance; three by withdrawal; four by expulsions, thirty-nine by transfer to other Conferences and twenty-two by death.

At the Conference held in Saco in 1847, there were reported nine teen thousand four hundred and sixty-seven members in Society, and one hundred sixty five local preachers.—One hundred and sixty-one preachers were stationed; thirty were returned superannuated and one was left without an appointment. Of the preachers receiving appointments eighty-two were in the Maine and seventy-nine in the East Maine Conference—seventeen superannuated preachers were assigned to the Maine Conference and thirteen to the East Maine. The Maine Conference held its first session after the division in Portland, July 19, 1848, and reported a membership of ten thousand six hundred thirty-four, and ninety nine local preachers. The E. M. Conference held its first session in Bangor, August 2, 1848, and reported a membership of nine thousand one hundred and forty-six, and seventy one local preachers.—

The General Conference of 1848 made provision for reporting members in full connection, and probationers separately. Since the division of the Conference in 1848, the Maine Conference has gained one hundred and six preachers by admission on trial; twenty-three by re-admission; fourteen by transfer from other Conferences; and has lost thirty-nine by location; sixteen by discontinuance; one by withdrawal; three by expulsion; twenty-six by transfer to other Conferences and twenty-seven by death, beside six by death since the Conference of 1866. The Maine Conference at its session 1866 reported a membership of 12,132 including probationers and seventy-six local preachers. Ninety-three preachers were appointed to supply the work; thirty-four were returned superannuated and supernumerary. The East Maine Conference at its session in 1866 reported a membership of 10,749 including probationers, and seventy-seven local preachers. Sixty-eight preachers were appointed to supply the work; Twenty-two were returned superannuated and supernumerary.

Twenty years have passed since the two Conferences met as one. The re-union which takes place today at Bath will afford an occasion of very deep interest to the two bodies assembling together, and to many members and friends of the church who may be able to be present. "OCCASIONAL."

The Late Stephen Hinckley.

Perhaps no event has cast a deeper shade over the entire place than the recent sudden and unexpected death of Mr. Hinckley of Gorham. He was literally a friend to everybody, and it is not known that he left an enemy behind.

Mr. Hinckley was born in Standish in 1790; was apprenticed while quite young to Mr. Clark, a tanner in Gorham; afterwards, for several years, he worked at his trade in Massachusetts, when in 1829 he returned to Gorham and purchased the place where he served his apprenticeship, and continued on the same spot to the day of his death, having acquired by his skill and industry a handsome estate.—He was married the same year at Westford, Mass., to Miss Sophronia Skedd, who, with six children, survives to mourn his loss—one child having died in infancy. We give expression to a universal sentiment in remarking that a more affectionate and hospitable family is no where to be seen. It is a model for a New England home. "The just man walketh in his integrity: his *children* are blessed after him."

Mr. Hinckley was not a professor of religion, but of his piety none could doubt. Of an enthusiastic and passionate nature, his feelings were yet under due control. Seldom was he hasty in speech, and probably the sun never went down on his wrath.

A chief element of his character was integrity. It beamed in his countenance, breathed forth from his lips, and controlled his every act. The impression thus made was unmistakable; for this is the spontaneous testimony of all who knew him.

Benevolent without ostentation, many public charities were replenished by his gifts, and widows and orphans had often occasion to call him blessed. "The Lord loveth the *cheerful* giver." Mr. Hinckley needed not to be urged. Readily anticipating wants, he promptly supplied them; and not waiting to receive thanks, he expressed satisfaction that calls upon his bounty had been made. Whether for private or public use, it was his practice to give what he deemed just and right, wholly irrespective of what others had done or might do, thus exhibiting a degree of independence and conscientiousness which it were well for all to follow.

Public spirited, without ambition for place, after earnest persuasion he reluctantly consented, several years since, to be treasurer of the town—an office which he faithfully and satisfactorily filled. As an example of his public spirit, it will not be out of place to mention that the inhabitants of the village having purchased a second-hand engine, which proved a failure, on his own responsibility he ordered and presented a first-class machine, and only required that when they felt able they might refund the cost.

For many years he was a trustee of Gorham Seminary; and although his extreme modesty would occasionally suggest that he could bring no literary aid to the trust, yet his considerate judgment, never-failing confidence and inspiring hope, together with his ready co-operation, were regarded as an ample equivalent.

In Mr. Hinckley the oppressed found a true friend. He was not ignorant of the cause of the late rebellion, and he contributed liberally towards its overthrow, not alone that the Government might be maintained, but also and especially that the slave might be set free.

The cause of temperance was a cherished object of his heart. Although his extensive and engrossing business, together with the modest feeling that he could contribute nothing but his presence, prevented frequent attendance upon gatherings in behalf of the cause, yet he always cheerfully bid the friends a God-speed, and was never backward in furnishing material aid, while his consistent example was a constant and increasing power for good in this direction.

The funeral of Mr. Hinckley was attended by a large concourse of mourning and sympathizing friends. The services, conducted by his pastor, Rev. Mr. Strong of the Congregational Church, were solemn and impressive.—The characteristics mentioned in this notice, namely, public spirit, integrity and benevolence, were presented with force and tenderness, and their singular application was apparent to the minds of all.

In the family, in the social circle, and in the business walks of life, as well as in other relations, Mr. Hinckley will be greatly missed; for his presence was a perpetual sunshine, and he shed a genial influence on all around. Following his example, the young man especially will enter upon a course which is sure to be crowned with honor and success. Happy for us all if we would emulate his virtues. Suddenly stricken down in the midst of his usefulness, the community deeply feel the shock.

"Leaves have their time to fall,
And flowers to wither at the north-wind's breath,
And stars to set; but all,
Thou hast all seasons for thine own, O Death!"

Re-Christened.

The town of West Cambridge, Mass., has become the town of Arlington. The change of name was decided on as a means of avoiding certain inconveniences and confusions. The re-christening was celebrated on Wednesday evening by a salute of one hundred guns, the ringing of bells, and a general display of the national colors.

The territory constituting the present town of Arlington was originally a portion of the north-west precinct of Cambridge. In 1733 it was set off as a separate parish and was called Menotomy. In 1807 the parish became a separate township, under the name of West Cambridge. The history of the original town is exceedingly interesting. The first capture during the Revolution was made in front of the site of the present town hall, the prize being a British wagon train on its way to Lexington The hardest fighting of the battle of Lexington took place within the limits of Menotomy. Arlington has a population of about 3000.

—A Newark gentleman, who chooses to be known as "Dunbar," criticises in the columns of the Newark *Journal*, Mr. A. M. W. Ball's claims to the authorship of "Rock me to Sleep." The principal points made by "Dunbar" are two: 1. Ball publishes a letter from a lady, asking in 1858 for a copy of his poem, "Rock me to sleep." Why don't he produce that copy? 2. He publishes several other letters, written after the publication of the poem in 1860, from persons who *think* they heard Mr. Ball read it five or ten years before. But nobody can pretend to recollect with absolute certainty a poem casually heard or read, after such an interval.

FOUND DROWNED.—Tuesday last Capt. Jno. Hill discovered the body of a man floating in the water just below Mackey's Island. He took the body in tow but the weather was so rough that he could not bring it up to the city and he therefore landed it on Cousin's Island, and sent to the city for a coroner. Yesterday Coroner Gould went down, and discovered that it was the body of Mr. Jefferson B. Usher, who formerly kept a junk establishment in this city, but who had recently removed to Mackey's Island. It is supposed he was drowned on Monday, as he had a morning paper of that date in his pocket. Coroner Gould ordered the body to be brought to the city, and to-day will hold an inquest.

LAMB.—Our correspondent at West Gorham, who questions the quotation for lamb, in our prices current of April 30th, is informed that the quotation had no reference to Spring lambs, but was for old. As stated in our review of the market, Spring lambs are scarce as yet, and therefore, we could give no fair quotation. But the few that have been brought in have been sold from 20 to 25 cents per pound.

DR. CRANE, of New York city, the celebrated physician, will deliver a free introductory lecture this evening, May 3d, at Brown's new hall, corner Brown and Congress streets, on "The Laws of Health, and the Nature and Treatment of Disease," at 7 1-2 o'clock. Ladies and gentlemen are cordially invited. Dr. Crane's consultation rooms are at the U. S. Hotel.

FRIGHTENED.—One of our most prominent and excellent citizens, on reading the paragraph in the *Press* of yesterday that there were twenty-one new libels for divorce filed in the Supreme Judicial Court, started forthwith for the Court room, to examine the docket to see if he was among the number of libellees! He came away perfectly satisfied.

ANOTHER SLIDE.—The slide which detained the Grand Trunk train on Wednesday, occurred in the heavy cut about a mile above the Northumberland depot. Another slide occurred yesterday in the Nullegan woods, covering the track to a depth of a foot or more for some distance. The train was detained there three hours before the track could be cleared.

SOLILOQUY.—"I am going down to Reddy's to get measured for a suit of clothes." But why not go to those nice fancy stores lately erected?" "Indebtment" vs. "Indebtedness."

Judge Bourne, the writer of the able articles in Wednesday and Thursday's issues of the *Press*, on the taxation of National Bank stocks, sends us the following, as a *private* note, but, believing the readers of the *Press* will take as much interest in it as we have, we know he will pardon its publication. We assure him the substitution of which he speaks was entirely unintentional, as we did not notice it in the proof-reading though we were careful to read by copy. The anecdote of Mr. Codman—so well recollected in this city—and Judge Story, is worth preserving:

KENNEBUNK, May 2, 1867.

DEAR SIR: I perceive that in my first communication, you substituted the word *indebtedness* for indebtment. I find no fault with you for doing so; though I do not like the change. The word *indebtedness* is an Americanism of late origin—but though Webster says the other word is but little used, it is solely because this new word more readily suggests itself to the common mind when occasion requires the use of it. The first time I ever heard it was about thirty years ago, in the Circuit Court at Portland. Codman, having occasion to express the idea which it conveys, used the word indebted—and stumbling at the last syllable, added *ness*. Judge Story stopped him,—"*Indebtment*, Brother Codman, *indebtment*." Neither of the words is found in any dictionary before Webster. Indebtment is the much better word of the two; and I think, with scholars of the legal profession, is more generally used.

Yours respectfully, E. E. BOURNE.

Death of Admiral Ringgold.

The New York *Evening Post* says Rear-Admiral Cadwallader Ringgold, of the United States navy, died in that city, Tuesday, 30th ult., of apoplexy. The Admiral was born in Maryland, in 1802. He entered the navy on the 4th of March, 1823, and on the 17th of May, 1828, was promoted to the rank of lieutenant.—On the 16th of July, 1844, he was commissioned as commander. For a short time he was in command of the surveying and exploring expedition to the North Pacific and China seas. On the 2d of April, 1856, he was promoted to the rank of captain, and when the war broke out he was in command of the frigate St. Lawrence. He was soon transferred to the frigate Sabine, and in command of this vessel took part in the work of blockading the southern ports. On the 16th of July, 1862, he was promoted to the rank of commodore, and continued in active service until December, 1864, when he was placed on the retired list. A short time ago he was advanced to the rank of rear-admiral, and ordered on duty, to succeed the late Rear-Admiral Gregory as superintendent of iron clads, with headquarters in this city. The remains were taken to Maryland for interment.

—An exchange, speaking of the inauguration of Mr. English as Governor of Connecticut, with all the pride, pomp and circumstance of the militia, said, "Gen. W. B. Franklin has been prevailed on to act as marshal." A great deal of natural inertia must have been overcome before he could have been thus "prevailed on."

—A correspondent sends us an article headed "John Neal on Temperance thirty-eight years ago," which contains extracts and sentences from an address by Mr. Neal at that time. We have shown it to a friend,—one of the active prohibitionists and radical friends of temperance, and he says there is not a word in it that Mr. Neal would not endorse now; we do not deem its publication called for.

—We shall publish the able dissenting opinion of Judge Dickinson, on the taxation of National Bank stocks, to-morrow. It did not come into our hands till Wednesday; hence the delay. It is an able document and we bespeak for it in advance a careful reading.

—The leader on the first page to-day is long—very long—tediously so perhaps, and as greasy as it is long—more greasy than ordinary oil wells, yet we think it will repay perusal. At least we bespeak for it a reading by those likely to have a relapse of that fatal disease—"oil on the brain."

—Seven salmon, weighing in the aggregate 125 1-2 pounds, were caught near Bangor one day last week, and were sold for $115.

—The Belfast *Age* states that on Thursday last, as Mr. David Patterson of that city was driving a horse and rack along Bridge street, his horse suddenly shied at some burning brush by the roadside, and he was violently thrown from the railing of the rack, where he was sitting, upon the road, and killed.

—The Farmington *Chronele* says there is some excitement in regard to the late incendiary fires in that town and Wilton, caused by the arrest and confession of a young man by the name of Alfred Billings. His confession implicates others as the abettors and instigators of the fires in the town, says he got out of his chamber window, went to the Mills Village and set fire to Mr. Eaton's barn, then returned and set fire to Mr. Stewart's barn, and got back into his chamber window again. He had a hearing before Justice Walker of Wilton on Monday, and was lodged in jail in this place the same day by Deputy Sheriff Miller.

—During the past year ten porgy oil factories have been erected in Damariscotta. The business is extensively followed all along the coast.

—The medical school at Brunswick, is in a most flourishing condition.

—John Marshall, stage driver from Bath to Rockland, has driven a stage 40 years. He has driven on the Bath route for 25 years.

—According to the result of our late vote on the railroad loan, the Bangor *Whig* says "there is little hesitation about anything that will benefit the business of that city. They are piling up a big city debt for all sorts of enterprises and improvements—but the citizens will grow all the richer for it. It is a good investment of money."

—A Kennebec paper has changed the name of Augusta to Sprague'ville.

—The Bath *Times* is unwilling, and indeed refuses, to believe that there were found ladies in that city—ladies of high respectability—who could stoop to visit, out of mere curiosity, the Bowdoinham bank robbers in their jails, deliberately seek out those felons in their prison, to have the *honor* of an introduction and a hand-shaking through the narrow wicket, and to bestow upon them bouquets and delicacies. For the honor of womankind, we certainly trust the *Times* has good ground for its disbelief.

—The *Maine Normal* for this month has an elaborate article *defending* the course of the Cambridge school-teacher who not long since tied up a young woman of sixteen and flogged her with a strap! The writer deserves the strap himself. We wonder if it would have modified his opinion at all had the rebellious girl thus brutally dealt with been a sister or daughter of his own.

We were ushered into a pew on Good Friday, in one of our up-town "high churches," and, taking from the rack a book of "Common Prayer," we opened it, and, to our great surprise, found inserted on the inner side of the cover, a looking-glass! This arrangement, we presume, enables the fair owner to admire herself, and adjust her chignon, during the service.—*Home Journal.*

PORTLAND DAILY PRESS.

Friday Morning, May 3 1867.

Foreign News per Steamer.

NEW YORK, May 2.

Steamship Persia, from Liverpool April 20th, via Queenstown 21st, has arrived. She brings the following details of news.

The London Times' city article of the 19th says heavy quotations from Berlin caused a renewed decline in consols, accompanied by a fresh panic in foreign securities, averaging over one per cent. Judging from the effect of each adverse rumor in Berlin or Paris, the impression would seem to be entertained that any rupture between France and Germany would be the signal for every nation in the world to repudiate obligations.

Telegrams from Berlin of the 19th describe a general rush to effect sales, without assigning any reason. The King's speech, it is assumed, produced a bad effect.

The Morning Herald says the threat of Bismarck to resign produced the feeling in Berlin that the King was disposed to force a war at all hazards.

The Times' Paris correspondent states that a private letter from Berlin mentions the fact that Bismarck recently declared to a foreign diplomat that it was impossible for him to make concessions in regard to Luxemburg. He could not consent to its neutralization or withdraw the Prussian troops from the fortress or admit the question open to negotiations, and even if Prussia was willing Germany would not hear to it.

The Times, editorially, says nothing this moment could be more significant than the speech with which the King of Prussia closed the session of the North German Parliament. All reticence is now cast aside, and whatever importance France and Austria may attach to the treaty of Prague, it is evident at Berlin that neither the sovereign or the people deem German national unity a matter which foreign powers have any business to concern themselves.

The Memorial Diplomatique publishes a telegram from Berlin, stating that Prussia is determined not to evacuate Luxemburg under any circumstances, and in official circles such evacuation would be considered equivalent to abdication of the position Prussia acquired by recent events.

A Paris correspondent says he is assured that preparations are making to leave. The French are ready for any emergency, and it is now better prepared for a sudden call than many suppose.

A telegram from Paris of the 19th, to the Daily Telegraph, says there is no truth in the rumor that France is about to declare war.—The Emperor has said, however, that he should be prepared for any emergency. When the Mexican transports return 50,000 men can be landed on any coast.

The Etendard, of the evening of the 19th, denies the rumor that the French have dispatched a note to Prussia and called out the reserves.

The Times refers to the American revenue commissioner about to visit England, saying he will arrive at a most opportune moment for revelations. The English Trades Union Commission will be ready for his notice and consideration.

Baron Von Wullersdorff has resigned the Ministry of Commerce and been appointed commander of the expedition to Eastern Asia, with power to conclude commercial treaties with Siam, Japan and China.

The fortress of Belgrade has been ceded to the Servians, and was taken possession of by the Servian authorities on the 19th, Prince Michael reading the Sultan's firmer that day to the people.

The London Times after discussing the Spanish decision relative to the Victoria, says now a first installment of redress has been obtained, we may feel sanguine as to the final adjustment of the differences, and nothing but the continued imprisonment of McPherson, the engineer of the Tornado, stands in the way of accepting reference to arbitration, if proposed.

The Morning Post says the people of America have not concluded the bargain for Russian America merely from an ambitious desire to enlarge their territory, but with the view of turning it to profitable account, as they did Louisiana and Florida.

The King and Queen of Portugal leave Lisbon for Paris on the 24th.

The Bank of Portugal notes have been forged, and a photographer arrested.

A Madrid letter of the 14th states that it is known there that an English fleet is cruising before Cadiz, but the journals are interdicted from publishing the fact.

The frigate Orantes arrived at Queenstown on the 19th, with troops from Quebec.

Further arrests of Fenians continue in Ireland, and a vigorous search in the country is going on.

Isthmus of Panama—Australia—South and Central America.

NEW YORK, May 2.

Arrived, steamship Henry Chauncey, from Aspinwall April 24th, with $236,215 in specie. She brings advices from Panama to the 23d ult.

The Star and Herald says Gen. Olarte, President of the State, in view of the expected invasion by the forces of Level de Goda, has issued orders to organize the militia and place them on a war footing; and in Panama the enlistment is carried on with energy.

The same paper states that owing to the prevalence of cholera to an alarming extent in Nicaragua, the steamers of the Panama Railroad Company have ceased for the present to take either cargo or passengers to Corinto.

The steamer Kuohine, from Australia, arrived in on the 6th ult.

R. Johnson, chief teller of the Commercial Bank, Sydney, New South Wales, had been arrested for embezzlement.

Much trouble was still experienced with bushrangers.

Dates from South America to the 14th of April have been received at Panama. The election of Deputies for the coming Congress has resulted in a government majority in Chili. A very tempestuous session is anticipated.

The relations between Peru and Chili are far from cordial, and the termination of the Spanish question is all that is necessary to lead to an open rupture. Peru was considerably excited at the resignation of the ministry.

Peace was thoroughly established at Guatemala. The Asiatic cholera is carrying off many victims in the principal cities of Nicaragua. In Leon one hundred deaths occurred in one day.

From Mexico.

NEW ORLEANS, May 2.

Advices from Tampico, dated 24th ult., say Gomez has pronounced against Juarez, and is in favor of Ortego.

Dates from Matamoras to the 29th ult. say news reached Monterey on the 24th to the following effect:—Porfirio Diaz occupied part of the city of Mexico. His headquarters are at the convent of Santa Domingo. Two squares of the main plaza of the city are still defended by the Imperialists. Gen. Tabera, at the head of a body of Imperialists, had made another attempt to cut his way out of Queretaro. The Imperialists at Queretaro were literally in a starving condition. Gen. Guadarama, who pursued and routed the Imperial forces under Gen. Marquez, has returned to Queretaro.—The Liberal troops at San Luis had also been sent to Queretaro. The Liberals were eager and anxious to end the struggle at and around Queretaro, and were working energetically and successfully to do so.

The Times of this city publishes a report received from private sources, which says another battle has been fought at Queretaro, resulting in the defeat of the demoralized Imperialists and the death of Miramon. After the fight Queretaro was occupied by the Liberals. Maximilian cannot be found anywhere. It is supposed that he has secretly fled. This confirms the report that Diaz had defeated Marquez at Queretaro and that the Liberals were complete masters of the situation.

From Havana.

NEW YORK, May 1.

The steamer Moro Castle, from Havana 27th ult., arrived this morning.

Havana, April 27.—The Captain General is very ill.

The case of the Ocean Home has been decided here, and she is condemned to pay a fine of $12,500. Full due and proper protests have been made, and affair has become an international one. The captain's position is a very strong one, and that of the Government a very weak one, and doubtless our Government will make as energetic a demand as did England in the case of the Queen Victoria; in which case there is no room for doubt that the vessel will be delivered up, the fine remitted, and pecuniary compensation made for the damages, which have been heavy.

Decoration of the Graves of the Union Dead.

MONTGOMERY, Ala., May 1.

A large gathering of freedmen, mainly women, assembled to-day at the National Cemetery and decorated the graves of the Union soldiers. This was intended as a national ovation to the national dead, and as an offset to the decoration of the graves of rebels by southern ladies. The procession was large and orderly.

Cable Dispatches.

LONDON, May 1—Evening.

The peace conference will meet in this city on the 12th, instead of the 15th of May. It is understood that Lord Stanley, the Secretary of State for Foreign Affairs, who represents Great Britain at the conference, will preside over its deliberations.

King George of Greece has arrived in London.

Poerio is dead.

The internal revenue receipts to-day were $1,766,309 36. Total amount of receipts for the month were $14,414,030 56. Total since the beginning of the present fiscal year, $228,449,604 87. THE MARKETS.

Financial.

NEW YORK, May 2.

The Post's financial article says the loan market is easy but a shade firmer, the rate being 6 @ 7 per cent. on call. There is less money offering to dealers in Governments at low rates, and the new business is at 5 per cent. Commercial paper unchanged. Stocks unsettled. Government securities strong. Railroad shares lower, the lull in speculative movements continuing.

The money market closes rather more active but easy; call loans range at 5 @ 6 per cent. on Government and stock collaterals. Discounts easy at 6 @ 7 per cent. for prime business paper. Foreign Exchange firmer but quiet; prime bankers' bills 109½ @ 109¾. Gold was stronger again at the close; last quotation 135¼. Government securities firm, and in some cases a traction better. Railroad stocks lower but quite firm. Mining stocks steady.

AFAU DE MAGNOLIA.—The prettiest thing, the "sweetest thing," and the most of it for the least money. It overcomes the odor of perspiration; softens and adds delicacy to the skin; is a delightful perfume; allays headache and inflamation, and is a necessary companion in the sick room, in the nursery and upon the toilet sideboard. It can be obtained everywhere at one dollar per bottle.

S. T.—1860.—X.—The amount of Plantation Bitters sold in one year is something startling. They would fill Broadway six feet high from the Park to 4th street. Drake's manufactory is one of the institutions in New York. It is said that Drake pointed all the rocks in the Eastern States with his cabalistic "S. T.—1860—X.," and then got the old granny legislators to pass a law "preventing disfiguring the face of nature," which gave him a monopoly. We do not know how this is, but we do know that Plantation Bitters SELL as no other article ever did. They are used by all classes of the community, and are death on Dyspepsia—certain. They are very invigorating when languid and weak, and a great appetizer."

"In lifting the kettle from the fire I scalded myself very severely—one hand almost to a crisp. The torture was unbearable. * * * The Mexican Mustang Liniment relieved the pain almost immediately. It healed rapidly and left very little scar.

This is merely a sample of what the Mustang Liniment will do. It is invaluable in all cases of wounds, swellings, sprains, cuts, bruises, spavins, etc., either upon man or beast.

WHAT DID IT? A young lady returning to her country home after a sojourn of a few months in New York, was hardly recognized by her friends. In place of a rustic flushed face, she had a soft ruby complexion of almost marble smoothness, and instead of 25, she really appeared but 17. She told them plainly she used Hagan's Magnolia Balm, and would not be without it. Any lady can improve her appearance very much by using this article. It can be ordered of any druggist for 50 cents

Heimstreet's inimitable Hair Coloring has been steadily growing in favor for over twenty years. It acts upon the absorbents at the roots of the hair, and changes to its original color by degrees. THE

MUTUAL BENEFIT

Life Insurance Company,

Newark, N. J.

Organized in 1845. *Charter Perpetual.*

Having paid losses on deceased members amounting to **$5,125,425,** and declared in Dividends to the living the sum of **$6,002,839,** with assets well secured amounting to over **$12,000,000,** has just declared its TWENTIETH annual Dividend, being **50 per cent.**

The Annual Income for 1866, was $4,034,855.39.

It continues to issue all classes of Life Policies, at the lowest rates consistent with perfect security to the members. Its distinguishing features are economy in expenditure, and care in its management.

It pays no stockholders for the use of capital, no bonuses or commissions to officers, and no immoderate compensation to agents.

All its Directors attend its meetings, and serve on its committees. Its risks are carefully selected so as to secure sound lives. It is careful in adjusting losses and prompt in payment.

Its funds are invested with regard to security, never hazarding principal for interest; hence it has never lost a dollar on its investments. After paying losses and expenses, and reserving the value of all outstanding policies, it has ALWAYS made in ANNUAL dividend of return premiums to the members, and paid them when due.

It is a "MUTUAL BENEFIT" Company, having but one class of members, all life policies, both new and old, sharing equally in the annual division of surplus, receiving a dividend on every premium paid.

It endeavors, in brief, to act in all respects as a faithful trustee for the members. Having for over twenty years pursued this course, it proposes to continue it in the future, and offers its advantages to all who desire to insure in a Company so conducted.

POETRY.

An Appeal to Rome.

[From Swinburne's "Song of Italy."]

O our dear Republic that shall bind in bands
The kingdomless far lands
And link the chainless ages; thou that wast
With Eng and ere she past
Among the faded nations, and shalt be
Again, when sea to sea
Calls through the wind and light of morning time,
And turns the less chime to chime
Makes antiphonal answer; thou that art
Where one man's perfect heart
Burns, one man's brow is brightened for thy sake,
Thine, strong to make or break;
O fair Republic hallowing with stretched hands
The limitless free lands
When all men's heads for love, not fear, bow down
To the sole royal crown,
As thou to me to me, when men's life smells sweet,
And at thy swift feet
A blossoms and bloodless world is laid;
Then, when thy men are made,
Let these indeed as we in dreams beheld
One chosen of all thy field,
One of all fair things fairest, one exalt
Above all fair or fault,
One anointed of unhappier men
And us who loved her then;
With eyes that outlook sunrise and dream on graves;
With voice like quiring waves;
With heart the hotter for their memories' sake
Who slept that she might wake;
With breast the sweeter for that sweet blood lost,
And all the maidens cost;
Lady of earth, whose large equality
Bends but to lift and free;
Equal with heaven, and infinite of years,
And splendid from quenched tears;
Strong with old strength of great things fallen and fled,
Diviner for her dead;
Chaste of all stains and perfect from all scars,
Above all storms and stars,
And thus blow through time, all waves that round
Our Capitolian Rome.

Pleasing Miscellany.

Robert Bruce.

From "The History of Scotland from Agricola's Invasion the the Revolution of 1688," a new work by John Hill Burton, just published in Edinburgh, we take the following incident in the life of "Robert the Bruce":

"We soon become acquainted with the nature, physical and moral, of the adventurer. He is a tall strong man, of comely, attractive and commanding countenance. When clad in steel and mounted on his war-horse, he is a thorough paladin, dealing with sword or mace the doughtiest blows going on in his day. But when he has to cast aside his panoply, he can take to the ways of the half-naked mountaineer—can make long journeys on foot, scramble over rugged ground, and endure cold and hunger. He is steady and sanguine of temperament; his good spirits and good humor never fail, and in the midst of misery and peril he can keep up the spirits of his followers by chivalric stories and pleasant banter. To woman he is ever courteous, and he is kind and considerate to all less able to bear fatigue and adversity than himself. There is throughout, indeed, a remarkable parallel between Robert Bruce and Henry the Great of France, with the difference in Bruce's favor of his living in an age which did not applaud the immoralities of gallantry.

"There is a very fair instance of his personal prowess in the retreat from the swamp of the Highlanders near Tyndrum. Two brothers had sworn to take his life; and bringing a comrade to aid them, they watched until the retreating party had to pass between a lake and its abrupt bank. Bruce was the last, and the passage was so narrow that it was impossible for him to turn his horse. Then the three leaped on him like wild cats. One seized the bridle and hung by the horse's head, and was instantly cut down. Another got his hands between the stirrup and the boot, and tried, by heaving up the rider's foot, to unhorse him. This was well known as a trick by which ill-armed assailants, reckless of life among themselves, might put mounted knights to imminent peril, for if once over-balanced the weight of the mail made recovery of the seat difficult. Bruce stood straight up in his stirrups and dragged the mountaineer after him, while the third alighted behind, and, grasping him tightly, tried to help in the unhorsing. The hero, twisting himself around, clefft his head, and then, having one more to deal with, cut down the man dragged at the stirrups."

A Dandy Trap.

In New Orleans the pavements rest on a cushion of water whose thickness varies with the amount of the last rain fall. The sand is soon washed out from between the bricks, and the latter then lie loosely in position with wide gaps between them. Fancy now that you have dressed yourself very elaborately for dinner, or for a select tea party; let us say in white drill or some light cassimere, your boots as immaculate as Warren's best can make them. You feel that you are creating a sensation even in the street, and are fondly anticipating the triumph of the drawing-room, when, suddenly, you step on one of these pitfalls and realize with painful intensity the exquisite fitness of the soubriquet. In the twinkling of an eye a cascade of dirty water has spirted up over all your glittering paraphernalia, and reduced you at one fell stroke to a state of hopeless unpresentability.—*N. O. Paper.*

MISCELLANEOUS.

FISK & HATCH,

BANKERS,

AND DEALERS IN

Government and other Desirable Securities,

No. 5 Nassau st, N. Y.,

Recommend to investors the

FIRST MORTGAGE BONDS

—OF THE—

CENTRAL

Pacific R. R. Co.

This Company is constructing under the patronage of the

United States Government,

The Western end of the

Great National Railway Across the Continent.

Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State line, traversing the **richest and most populous section of California** and thence through the **great mining regions of the Territories,** to the vicinity of Salt Lake City.

It forms the **sole Western link** of the only route to the Pacific which is adopted by Congress and **aided by the issue of United States Bonds.**

Their road is already completed, equipped and running for 95 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The **First Mortgage Bonds** of this Company afford unusual inducements of Safety and Profit to investors, for the following among other reasons, viz:—

First. The rates of interest is **Six per cent in Gold,** payable semi-annually in the City of New York.

Second. The **Principal** is payable **in Gold** at maturity.

Third. The cost of the Bonds, **Ninety-Five per cent.** and accrued interest, is **Ten per cent.** less than that of the cheapest six per cent. Gold Bearing Bonds of the Government.

Fourth. The **United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re-payment.**

Fifth. Owing to this liberal provision, accompanied with EXTENSIVE GRANTS OF PUBLIC LANDS, by which the Government fosters this great national enterprise, **its success is considered certain, and its final availability is altogether independent of the contingencies which attend ordinary Railroad enterprises.**

Sixth. The Security of its FIRST MORTGAGE BONDS is therefore AMPLE, and their character for safety and reliability is equalled only by that of the obligations of the GOVERNMENT itself.

Seventh. The net earnings of the completed portion are **already largely in excess of the interest obligations which the company will incur on twice the distance,** and are steadily increasing, rendering the **uninterrupted payment of the Interest absolutely certain.**

Eighth. At the present rate of Gold they pay nearly **8½ per cent.** per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi-annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

ASTROLOGY.

The World Astonished

AT THE WONDERFUL REVELATIONS MADE BY THE GREAT ASTROLOGIST,

Madame H. A. PERIGO.

She reveals secrets no mortal ever knew. She restores to happiness those who from doleful events, catastrophes, crosses in love, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the maleric stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Consultation fee, with likeness and all desired information, $1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves, as if in person. A full and explicit chart, written out, with all inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned. The strictest secrecy will be maintained, and all correspondence returned or destroyed. References of the highest order furnished those desiring them. Write plainly the day of the month and year in which you were born, enclosing a small lock of hair.

Coughs, Colds, Sore Throats, &c.

Letter from Hon. D. W. Gooch, Member of Congress Massachusetts.

MELROSE, July 19, 1865.

DR. E. R. KNIGHTS—Dear Sir: I have used Dr. Larookah's Syrup in my family for six years, and have found it an excellent remedy for Coughs, Colds, Sore Throats, and all Consumptive Complaints, &c. I have recommended it to several friends, who have received great benefit from its use.

Letter from a well known Boston Druggist of twenty years experience, and Steward of Hanover Street M. E. Church:

BOSTON, March 9, 1865.

DR. E. R. KNIGHTS: Having used LAROOKAH'S PULMONIC SYRUP myself and in my family for the past six years, I am prepared to say that it is superior to any medicine I have ever known, for the positive cure of Coughs, Colds, Sore Throat, and all similar complaints. As I take cold very easily, I have had great opportunity to test the VIRTUES of this valuable remedy, and it has never FAILED me yet, however violent the disease. Having been in the Drug business for over 20 years, I have had good opportunities of knowing the virtues of the various medicines sold, and pronounce LAROOKAH'S SYRUP, THE BEST of any article EVER presented to the public.

Yours, W. R. BOWEN, 86 Hanover St.

CROUP.
